

The ANDERSON 2202-JR The "Junior"

Patent Pending

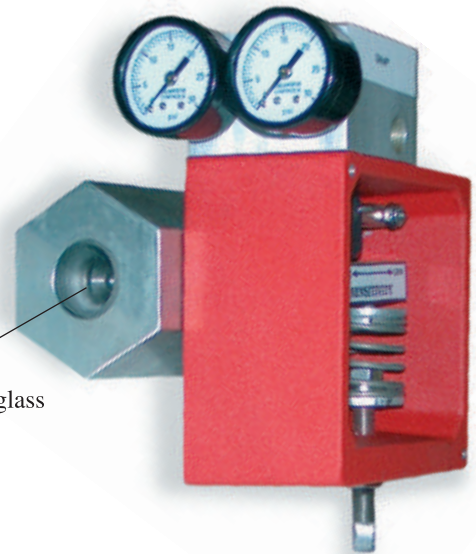

Displacer available in vertical or horizontal and different sizes and materials.

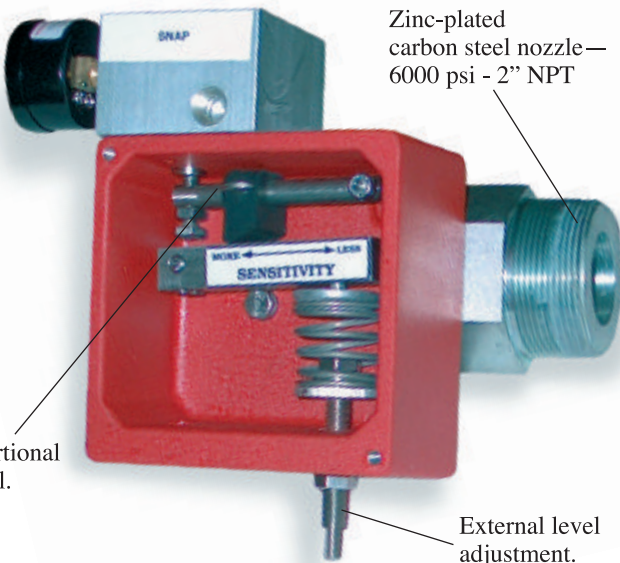

The Low Cost Solution

External pilot available in snap or throttle.

Optional sight glass 1500 psi

Zinc-plated carbon steel nozzle—6000 psi - 2" NPT

Proportional control.

External level adjustment.

Properly located filter upstream from supply gauge - a drop in supply pressure gives advanced indication of a plugged filter.

Easy to service pilot and filter - just remove cover plate.

Baked-on powder coat.
